

CAPABILITIES STATEMENT

ABOUT US

IAC – International Aerospace Coatings is the worldwide leader in aircraft painting and corrosion control for the military and defense industries. With a highly trained & experienced work force, IAC consistently delivers quality finishes in competitive turnaround times. IAC is the go-to partner of choice, having painted more aircraft than any other provider in the USA, including fighter jets, aerial refueling tankers, AWACS, transport & cargo aircraft, UAV, and other military platforms. With US headquarters in Irvine, California & EU headquarters in Shannon, Ireland, IAC has a long history and excellent reputation with the U.S. & European government's defense organizations in applying the best aircraft painting finishes on all types of military aircraft.
